Continuation of Substance of Interview including description of the general nature of what was discussed:

The examiner's amendment was agreed to and authorized by Mr. Meilman in order to clarify the scope of claim 13.

Given the examiner's position that the scope of the claim was confusing given that it was not clear how a polyoxyalkene amine is a copolymer of a polyethylene oxide and a polypropylene oxide or how the amine is selected from the group consisting of only one compound, the examiner's amendment was made to clarify that the polyoxyalkene amine is derived from a copolymer of polyethylene oxide and a polyproplyene oxide.
